

YEAR 2001 USED OIL ANNUAL REPORT

PUBLIC USED OIL, OIL FILTERS, AND ANTIFREEZE COLLECTION SITES

INSTRUCTIONS

Complete "Worksheet on Used Oil Annual Report" first, second complete Sections D through G

Note: Each letter corresponds to a section of the attached reporting form

- A. Fill in the agency name (as it is legally referred to), address, and agency type responsible for used oil collection.
- B. Fill in the name of the person who is responsible for the used oil program. Also include their title, telephone number, and e-mail address.
- C Indicate the start date of collecting used oil **or** expanding your existing program.
- D. Indicate the total gallons of used oil collected in 2000 (total from worksheet).
- E. Check the appropriate box for collection of used oil filters, indicate the number of sites collecting, number of drums collected, and how disposed.
- F. Check the appropriate box and fill in values for antifreeze managed and collected.
- G. Check the appropriate box and supply accurate information about where you receive waste from, type, and estimated amount of waste received.

Make sure that you have completed, signed, and dated this form.

The preparer is the person who has prepared the survey forms, is familiar with the regulations, and is in charge of overseeing the operations. Please provide their name, title, date, telephone number, and e-mail address.

YEAR 2001 USED OIL ANNUAL REPORT

PUBLIC USED OIL, OIL FILTERS, and ANTIFREEZE COLLECTION SITES

(Please complete each box)

A.	AGENCY NAME	В.	PRIMARY CONTACT NAME / TITLE
	ADDRESS		Name
			Title
			Phone ()
	City		Fax
	State Zip		E-Mail
	Agency Type(public works / service / county)

WORKSHEET FOR USED OIL ANNUAL REPORT

This worksheet is for your use in determining the amounts of oil collected and the amounts "re-refined". Re-refining includes recycling, and other higher waste management methods such as reduction or reuse.

Ecology requests that you submit your completed worksheets with your annual report. The information will be used to update the "Recycle Information Line".

Note: You may submit a spreadsheet with the required information.

 R Re-refining. A process of remanufacturing used oil. E Energy recovery. A process of converting used oil into usable energy, e.g., burned to recover energy, heat building, or incinerator. H Hazardous waste facility. Contaminated used oil sent to a hazardous waste facility. O Other disposal methods different from the list above. 						
Name and Address of Used Oil Collection Point	Hours / Days Open	Quantity Collected (in gallons)	Disposition, e.g. R, E, H, O (in gallons) of used oil	Disposition of Oil Contaminated (in gallons) if any		
SAMPLE: 1. (Business/Facility) XYZ Transfer Station 2. (Address) 1234 North Avenue 3. (City/State/Zip) Anytown, WA 98999 4. (Phone No.) (xxx) xxx-xxxx	M-F 7 am - 8 pm Sat/Sun 8 am - 5 pm	3,000	R E H O	R E H500 O		
1			R E H O	R E H O		
1			R E H O	R E H O		
1			R E H O	R E H O		
1			R E H O	R E H O		
	TOTAL		Indicate total ur the Year 2001 U Report			

 $\boldsymbol{\mathsf{R}}$ Re-refining. A process of remanufacturing used oil.

E Energy recovery. A process of converting used oil into usable energy, e.g., burned to recover energy, heat building, or incinerator.

H Hazardous waste facility. Contaminated used oil sent to a hazardous waste facility.

O Other disposal methods different from the list above.
